Western Union's Federal Seizure Sought by AFL

WASHINGTON, April 18 (U.P.)—The American Federation of Labor today asked the government to take over and operate Western Union Telegraph company.

The request came as the government was bogged down in efforts to settle a 12-day nationwide telephone strike. Mediators were reported ready to write a new compromise proposal in an attempt to resolve the stubborn labor dispute in that field of communications.

The AFL made its request in a brief filed with the federal communications commission.

It said the alternative to government operation of Western Union is its transfer for operation to American Telephone and Telegraph company.

Curb Bill Is Illegal, CIO Says

WASHINGTON, April 18 (U.P.)—The CIO said today the labor bill approved by the house is "probably unconstitutional," and unions will attack it in the courts if it becomes law.

Nathan Cowan, CIO legislative director, said in a statement:

"The Hartley bill is an ill-considered, badly-constructed and probably unconstitutional measure. We will oppose it at every step of the legislative process and in the courts."

Cowan said the bill does nothing to improve living standards or to curb the super-power of strutting corporate monopolies. He concluded:

"Passed Late Yesterday

"When the Jerry-bill hysteria against labor collapses of its own weight, we expect that this bill and others like it will be contained to the legislative rubbish heap where they truly belong."

The senate passed the bill on Wednesday on its own bill which lacks many of the union curbs of the house version.

The house passed the bill yesterday by a 308-107 vote.

The bill would strip the power of the federal government to force companies to bargain with unions.

25 New Bodies Discovered in Smoking Texas Chemical Plant As Live Victims Report Denied

TEXAS CITY, Tex., April 18 (U.P.)—Twenty-five new dead were found in the still-smoldering Monsanto Chemical works today, entered for the first time since the Wednesday explosion, and officials said possibly 100 might be found. Maj. Bernard C. Morris of the Salvation Army checked the bodies and said they were buried in its several trucks.

John Davis of Houston said he helped pull eight bodies out of the water at the dock where the ship Grandcamp blew up, setting off the chain of explosions that wrecked the Monsanto Chemical works, much of industrial Texas City, and two other ships docked nearby.

The known death toll went over the 300 mark, officials said. Paul Stokes, Red Cross relief worker in the restricted area, said 16 cases of small arm wounds had been found about the Grandcamp. Earlier, the Houston Chronicle had quoted E. H. Sandell, in charge of a crew of embalmers at the emergency mortuary, as saying several had been found alive.

Meanwhile, over at Galveston, the coast guard hearing was underway and the initial witness, Samuel F. Muecke, deputy collector of customs at Galveston, said 16 cases of small arm wounds had been found about the Grandcamp. Earlier, the Houston Chronicle had quoted E. H. Sandell, in charge of a crew of embalmers at the emergency mortuary, as saying several had been found alive.

Hal Boyle, Associated Press writer at the scene, said the rumor of victims being found alive had been current but could not be confirmed.

J. A. McMahon, in charge of the equipment engaged in rescue work at Monsanto, told Boyle that he had been on the scene since daylight and had not found any victims alive.

John Hill, deputy mayor, said "I haven't heard of anybody being found alive, but I hope to God they will."

Skies were heavy with smoke blown over the city by the shifting south wind and Boyle said "it looks like it is about to rain."

Monsanto issued a statement to the press saying that 25 of its employees are still unaccounted for. It said that 31 have been identified among the known dead, but have been found among the injured, and 71 have been located unharmed.

A company official estimated that probably 100 were killed in Wednesday's fire and explosion.

Efforts to find out how many party of firemen at Monsanto was a girl, dead in a first floor office, were being pressed.

A press conference was held this morning while rescue workers probed the Monsanto ruins for the first time in three days. Hill said work was progressing well and that no more major explosions or fires were expected.

"The fire is dying down now," Hill told reporters.

No bodies had been found in waters nearby, but a new search of waterfront debris will be made.

The local ministerial association will meet to discuss plans for the dead.

Grand Vessels, Red Cross director, said that \$250,000 had been authorized for immediate relief and that more would be obtained if needed.

Wind Shifts

An advance party and firemen dressed in asbestos fire fighting suits moved into the Monsanto ruins today. They were the first to enter the plant in three days.

A stiff north wind had been blowing flames and smoke out to sea. Today it shifted to the south. By 11 a. m. smoke had drifted as far inland as Palestine and Jacksonville, 160 to 175 air miles north of the disaster area.

Here, however, the wind was dead. It was blowing from a beach and smoke from the fires was high before it drifted back over the city.

However, all fires have no flying sparks and officials said residential areas were being searched farther to the north probably would not be endangered.

Phone Strikers

Get No Benefits

BOISE, April 18 (U.P.)—Striking telephone employees are not eligible for unemployment benefits under a state compensation law. Chief Claims Examiner August Grover of the unemployment compensation division said today.

"The law says that workers who are idle because they refuse to cross telephone picket lines are not eligible for unemployment benefits," he said.

He made his announcement after Raymond D. Butler, manager of the Idaho Telephone Company, said that claims were being filed in Lewiston by striking employees of the Pacific Telephone and Telegraph company.

Henry Ford's Will Gives No Hint of Value

DETROIT, April 18 (U.P.)—The will of Henry Ford, noted automobile industrial pioneer, was filed for probate today but gave no inkling of its extent.

It left the bulk of the estate, reported in non-voting stock in the Ford Motor company to the Ford Foundation, and all of Ford's holdings of the Ford Motor company to the Ford Foundation, and all of Ford's holdings of the Ford Motor company to the Ford Foundation.

Unofficial estimates of the estate's value have ranged upward of \$500,000,000.

Hills Ruler Empire

Clifford B. Longley, attorney for the Ford family, said that when the will is finally cleared through probate, control of the Ford industrial empire will rest with the heirs of Ford.

The will, dated Feb. 3, 1936, left only the Ford home "Fairlane" in Dearborn, where Mr. Ford died April 7, to his widow along with some personal effects.

Other than the bequests to the Ford Foundation, the grandchildren and the widow there was no specific bequest.

Money Tax Exempt

The Ford Foundation, organized in 1936, contributes to the maintenance of the Ford Research Institute in Dearborn, to the Ford Motor company, and to other institutions.

In the latest report filed by Henry Ford, the second, its president and treasurer, it reports assets of \$109,160,000 on June 30, 1945.

Its purpose is described as "to receive and administer funds for scientific, educational and charitable purposes all for the public welfare."

As an outcome, it said, it and any contributions it receives are tax exempt.

Pair Divorced, Hubby Remains

BOSTON, April 18 (U.P.)—Mrs. Rita Blimier had a divorce today, but she still couldn't get her husband out of the house.

She complained to the judge who granted the divorce yesterday.

"It's the housing shortage, your honor. I can't evict him, and I can't raise his rent because of government control."

Churchill Lashes at Speeches of Wallace

LONDON, April 18 (U.P.)—Winston Churchill obliquely denounced Henry Wallace today as a "crypto-communist" and by inference accused him of trying to separate Britain from the United States and align her with Russia.

Churchill spoke at a small meeting of crypto-communists attacking British foreign policy.

After explaining that a crypto-communist was "a man who has not got the courage to explain the present situation for the people of his own country," he said:

"I have traveled quite a bit myself. I have seen the world. I have seen the United States and Europe and America. But when I travel to the United States, I am criticized or attacked by the government of my country. I make up for lost time when I come home."

Poor Policy

Turning to the Wallace visit to Britain, Churchill mentioned him as "a visitor who lately arrived from the United States" and who had been "in the British foreign policy which Churchill said had the support of the British people."

"I have traveled quite a bit myself. I have seen the world. I have seen the United States and Europe and America. But when I travel to the United States, I am criticized or attacked by the government of my country. I make up for lost time when I come home."

Victim of Plane

Crash "Serious"

SAULT LAKE CITY, April 18 (U.P.)—James D. Ridgeway, Jerome, is in serious condition at the veterans hospital here from injuries received in a plane crash near Roosevelt, Utah, in which D. B. Hamilton, former Haley resident, was killed.

Ridgeway was carried by stretcher 21 miles through rough desert country. Hamilton lived several hours after the accident, according to reports.

Hamilton, inspector for the civil aviation administration, was killed when he was struck by a plane which he was inspecting.

Hamilton, a student pilot, apparently landed on the highway or desert to pick up Ridgeway, who was not reported aboard when the plane took off from the airport.

Burley Clubs Seek Rebate Of City Fees

BURLEY, April 18 (U.P.)—City officials seeking recovery of the unused portion of \$10,000 city license fee paid by Burley tobacco distributors today sought a rebate from the city.

The city of Burley will be filed soon, probably just before the next city council meeting, Dr. A. Klorper, Burley attorney, announced today.

Klorper charged the city license fee was illegal and said that if it is found unconstitutional, the city would be forced to seek recovery of the 1946 license fee paid by the five club owners.

Not Enforced

"The city has not enforced the ordinance to that certain tobacco clubs in the city were not forced to pay the license and I feel the ordinance was enforced in discrimination against some of the club owners," the attorney declared.

The clubs have closed voluntarily April 19 after Gov. C. A. Robins had signed the measure legally imposing the license on the outlying tobacco clubs. Klorper pointed out the club owners were acting in good faith seeking return of only the unused portion of the license fee, estimated at \$700.

The clubs involved are the Yacht club owned by Joe Varela; Copper club, Andy Johnson; 610 club, Sandy Johnson; Phila club, George L. Johnson; and the Atlantic club, West and Tiller.

Request Rejected

At a recent city meeting, the group refused to comply with the club's request for a rebate. Klorper said the city attorney opinion at the meeting the rebates need not be paid.

Klorper declared the city of Burley was attempting to license club owners for something they were being prohibited from doing by recent state legislation and claimed that the ordinance was unconstitutional.

He said the ordinance was unconstitutional and that the city was acting in discrimination against some of the club owners.

Bridegroom Gets 'Gift' of Tickets

Twin Falls city police can't help feeling romantic one in a while—especially in the spring.

They noted a car that had been around in one place all of one night, throughout the next day and into another night. Getting in and out of one place parking tickets, officers finally summoned a wreck-wrecker and had it hauled to the police station.

Checking the car over, they found it on the floor and figured that might be a clue to the situation. Eventually, the owner showed up and explained she had been told she had just been married and had forgotten all about the car.

The parking charges were dismissed.

Income Hiked By Education, Speaker Says

BURLEY, April 18—The higher the education level of a country, the higher is the national income, regardless of natural resources available, Mary Titus, president of the National Education association, told educators at Blaine, Minn., and Cass county Thursday night.

Mrs. Titus asserted Switzerland has few natural resources but a high educational standard and new level as high as an individual income level as the United States. She also pointed out that Mexico has many resources, low educational standards and a low individual income.

Mrs. Titus told the educators the public eye has been trained on schools by many magazine and newspaper articles and the teachers should use this public interest to the good advantage to sell parents on education.

She stated Russia spends 13 per cent of her national income on education, England spends three per cent and the United States spends only one and one-half per cent on education.

Mrs. Titus was introduced by Bea Bata, Boise, and the meeting was presided over by Mary Burley, president of the Idaho Classroom Teachers organization.

Trailways Driver Given Award for Record of Safety

Payne Reddick, Twin Falls, was presented a gold pin and plaque at a meeting Thursday night in recognition of having driven a Pacific Trailways bus for one year without a reportable accident. The presentation was made by Chief of Police Howard Gillette, guest speaker.

Reddick drives between here and Salt Lake City, making six round trips every two weeks. He covers about 75,000 miles annually. Gillette complimented him highly for his safe-driving accomplishment.

The award was made as a part of a quarterly meeting between drivers and company officials. Attending the meeting were Maurice H. Hoover, Boise, vice-president of Pacific Trailways, and Jerry Chester, Portland, Ore., traffic manager. Here from Bend, Ore., were Payne Reddick, superintendent of transportation; and W. E. Parsons, assistant manager. A guest at the meeting was Ray Pennington, representing the Twin Falls-Boise line.

The dinner and meeting were the first of a series to be held in Portland, Bend, Boise and Twin Falls every three months to acquaint employees with the company's future policies for the care of passengers, establishment of new depots, and type of bus use on order.

Announced at the meeting was the purchase of 18 new coaches during the past year and the expected delivery of 10 more buses in the next three months. Hoover said the new buses will be placed in service on the mainline between Salt Lake City and Portland through Twin Falls.

Housing Cost Next Step in Truman Drive

WASHINGTON, April 18 (AP)—The next step in the administration's anti-inflation campaign will be a special appeal to the construction industry to cut housing prices, a source close to the White House has revealed.

President Truman's economic advisers were in such a key that they would lead to lower prices in other fields. The administration's appeal will be made to industry leaders at a series of private meetings to begin soon, this source said. The President's advisers will rely on "moral suasion" to convince the industry it should cut prices voluntarily.

Taft agrees
Mr. Truman already has made similar appeals to industry as a whole. The administration does not feel that the response thus far has been satisfactory although several firms have announced price reductions.

Meanwhile Sen. Robert A. Taft, R., O., told a reporter that the "fully endorsed" Mr. Truman's campaign for lower prices. However, he questioned the President's statement of last week that another round of wage increases would be justified if prices are not cut soon.

Wages Higher
Taft agreed that commodity prices must be lowered to prevent a dangerous economic spiral, but he said that for the time being, the wage increase is not warranted. Recent price increases have been mostly at the expense of the consumer. Figures show the cost of living has "hardly increased at all during the past month."

"It should be pointed out," the senator Republican policy leader said, "that the increase in the cost of living since 1939 has been about 45 per cent whereas wage rates have increased 70 per cent and weekly wages of take-home pay has gone up 74 per cent."

3 Knockdowns in Day, Then Divorce

BURLEY, April 18—A divorce was granted Wednesday in Burley by District Judge T. Bailey Lee to Eleanor Sheridan from Marvin Sheridan on grounds of extreme cruelty. The court ordered that her maiden name, Eleanor Strathgairn, be restored to her. They were married July 23, 1946, at Kimberly.

Her complaint alleges that Sheridan inflicted grievous bodily injury and emotional suffering. On Nov. 14, 1946 he struck her in the back with a knotted her down three times, and that on Dec. 8, 1946 she left him to "protect and preserve her health."
